Agency CDPHE

Purpose of Contact Change to the FY03 Notification #03-12 IHSS Group 800-1 regarding Final Grade

Discussion

In the Final ER RSOP for Routine Soil Remediation FY03 Notification #03-12 IHSS Group 800-1, on Section 2 4, page 6, references are made for removal of slabs associated with support buildings, and storm drains and sanitary sewer lines, to 3 feet below existing grade

It is understood that with reference to those items, and in compliance with the Facility Disposition RSOP, the wording should read 3 feet below final grade

For clarification, at 800-1, the OPWL beneath the footprint of the building has been completely removed OPWL outside the footprint is at least 3 feet below final grade
